

Edexcel Level 4 Diploma in Fire Safety (Inspectors)

Description

The Edexcel Level 4 Diploma in Fire Safety (Fire Inspectors) (QCF) is suitable for managers, staff and owner-occupiers who are responsible for ensuring that suitable and sufficient fire safety arrangements are made and maintained. It is also suitable for personnel in a fire safety regulator role with responsibility for ensuring the requirements of fire safety and associated regulations are being met through cooperation or enforcement. The qualification give learners the opportunity to develop knowledge and skills related to fire safety auditing and inspection within the operational context of complex premises and environments, eg high/transient occupancy large scale buildings (ie office complexes, hotels, industrial premises, shopping centres).

Modules

1. Assess risks associated with fire in complex premises and environments
2. Ensure measures are in place to protect people from fire in complex premises and Environments
3. Review fire protection systems in complex premises and environments
4. Review safety measures at locations that are regulated and/or licensed
5. Visit complex premises and environments for the purposes of fire safety regulation
6. Review fire safety matters relating to existing or proposed construction
7. Work in partnership to minimise risks to the community
8. Support the management of risks at incidents
