

### **About Edexcel**

Edexcel, a part of Pearson, the international media and Education Company, is one of the leading examining and awarding bodies in the UK and in over 112 countries throughout the world. It was formed in 1996 from the merger of the Business and Technology Education Council (BTEC) and the University of London Examinations and Assessment Council (ULEAC).

Edexcel has 90% of the vocational qualification market in the UK, with 400,000 students receiving BTEC qualifications each year. Its qualifications include A levels, GCSEs, GNVQs, Key and Basic Skills, and the vocational BTEC suite that provides progression from pre GCSE level through to sub-degree Higher National Diplomas and tailor-made qualifications for employers. It also offers a range of Foundation degrees.

**The Caribbean Polytechnic Institute** is a registered Edexcel/BTEC center and is registered with The Ministry of Education as an independent post secondary institution.

**Who Should Attend** Logics, warehouse executives, storekeepers, production planners, freight forwarders, shipping executives, buyers, supervisory executives in warehouse and distribution functions.

**Professional Diploma  
in  
Logistics**

## Course Description

The five-unit BTEC Professional Diploma in Logistics provides a specialist work-related programme of study that covers the key knowledge, understanding and practical skills required in the logistics sector. The qualification also offers particular specialist emphasis through the choice of specialist units. The BTEC Professional qualification offers adult learners an engaging programme for higher education and an opportunity for learners to use this qualification to enter or to progress within their existing employment. The qualification is also suitable for those wishing to change career or move into employment in logistics.

### Core units

1. Management in Logistics and Transport
2. Independent Research into Logistics and Transport
3. Supply Chain Management
4. Sourcing and Procurement
5. Inventory
6. International Business Sourcing and Procurement

### Management in Logistics and Transport

1. Investigate the **internal dynamics** of a logistics and transport organisation
2. Examine the impact of **external agencies and influences** upon a logistics and transport organisation and responses to those influences
3. Explore the skills and knowledge of **people** working in an organisation in terms of experience and optimisation of skills and knowledge
4. Explore the management and optimisation of the financial and other **resources** of a logistics and transport organisation.
