CONTRACT ADMINISTRATION

Sustainable Alternatives is a consulting company dedicated to sustainable development. It advocates a wholistic, multidisciplinary approach to human development, and the environment. The company was formed in September 1998.

Major Goals:

- To promote understanding about environmental, social and economic issues and how they impact on the sustainable development of our resources.
- To provide organizations with practical results that protect their profits and reputation while adding significant business value.

Caribbean Polytechnic Institute

Since October 2003, SAL has established the Caribbean Polytechnic Institute (CPI) as the training division of the company. The institute will offer professional development and continuing education courses in a wide range of disciplines. CPI will provide courses that are interesting, practical and relevant to national and global needs.

International Qualifications

Sustainable Alternatives has established The Caribbean Polytechnic Institute (CPI) as an independent school that offers continuing education courses that promotes career development. CPI will offer City and Guilds International, City and Guilds Pitmans (certificate, diploma and advanced diplomas) and The University of Cambridge International Career awards (certificate modules and diplomas)

Joint Certification Programmes

Sustainable Alternatives develops and presents appropriate training programmes in the area of Sanitation and Pest Management to a selected group of client representatives. Our Mission is to provide quality training services to individuals

and organizations in business and industry. We help our clients to improve the quantity and quality of their products and services, SAL therefore, helps to strengthen the economic development of Jamaica and enhance its position in the global marketplace.

The training programmes are cost effective and designed to comply with local and international regulatory bodies.

The Faculty of Science, College of Agriculture Science and Education and the Food Storage and Prevention of Infestation Division, Ministry of Commerce and Technology and the Bureau of Standards and The National Council for Technical Vocational and Educational Training (NCTVET) have been signatories to our training certificates.

Mission Statement

To provide quality technical, vocational and higher education opportunities that meet the dynamic needs of the Jamaican and the global workforce. It accomplishes this by emphasising:

- Strong skills in communication, problem solving, and critical thinking
- Opportunities for experiential, cooperative, and internships experiences
- A strong background in information technologies
- Interdisciplinary programs
- A strong sense of commitment to public service
- A personalized learning environment
