In collaboration with

NATIONAL COUNCIL FOR TECHNICAL VOCATIONAL AND
EDUCATIONAL EDUCATION (NCTVET)

(See Calendar for date and time)

Occupational Health and Safety

Course Topics

COURSE DESCRIPTION

The course focuses on good people management – their safety and health on the job. Participants will be educated on how to reduce the human, social and financial cost of injury and illness in the workplace. They will examine various dimensions of health and safety issues in the field (technical, legislative, political and personal). A proactive approach to occupational health and safety issues is integrated into the course and practical application of all material is assimilated.

Course Outcomes

COURSE TOPICS

- Health and Safety Regulations
- Workplace Inspection and Hazard Analysis.
- Hazard Communications
- Risk Management
- Accident Investigation
- The Occupational Health and Safety Plan

Delivery Method

Interactive group discussions, case studies, simulations, site visit, oral presentations, written project assignments

Target Group: Supervisors, first line management, health and safety wardens
